FREEDMEN'S BUREAU PRESERVATION PROJECT

This National Archives microfilm publication is part of a multiyear project to microfilm the field office records of the Bureau of Refugees, Freedmen, and Abandoned Lands (Freedmen's Bureau). The project was made possible by the United States Congress through The Freedmen's Bureau Records Preservation Act of 2000 (Public Law 106-444). When completed, all of the field records for the States of Alabama, Arkansas, Delaware, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, Missouri, North Carolina, South Carolina, Tennessee, Texas, Virginia, and for the District of Columbia will be available on microfilm. For microfilm availability and description, consult the current edition of the National Archives publication *Microfilm Resources for Research: A Comprehensive Catalog*. INTRODUCTION

On the 34 rolls of this microfilm publication, M1900, are reproduced the previously unfiled records of the Alabama office of the Assistant Commissioner, his staff offices, and subordinate field offices of the Bureau of Refugees, Freedmen, and Abandoned Lands, 1865-1872. These records consist of bound volumes and unbound records, containing materials that include letters and endorsements sent and received, monthly reports, applications of freedmen for rations, and other records relating to freedmen's claims and homesteads. These records are part of the Records of the Bureau of Refugees, Freedmen, and Abandoned Lands, Record Group (RG) 105, at the National Archives Building in Washington, DC.

This film series completes the reproduction of all Bureau records created in Alabama between 1865 and 1872. Many of these records were reproduced in 1972 in National Archives Microfilm Publications M809, *Records of the Assistant Commissioner for the State of Alabama, Bureau of Refugees, Freedmen, and Abandoned Lands, 1865-1870*, and M810, *Records of the Superintendent of Education for the State of Alabama, Bureau of Refugees, Freedmen, and Abandoned Lands, 1865-1870*.

HISTORY AND ORGANIZATION

The Bureau of Refugees, Freedmen, and Abandoned Lands, also known as the Freedmen's Bureau, was established in the War Department by an act of Congress on March 3, 1865 (13 Stat. 507). The life of the Bureau was extended twice by acts of July 16, 1866 (14 Stat. 173), and July 6, 1868 (15 Stat. 83). The Bureau was responsible for the supervision and management of all matters relating to refugees and freedmen, and of lands abandoned or seized during the Civil War. In May 1865, President Andrew Johnson appointed Maj. Gen. Oliver Otis Howard as Commissioner of the Bureau, and Howard served in that position until June 30, 1872, when activities of the Bureau were terminated in accordance with an act of June 10, 1872 (17 Stat. 366). While a major part of the Bureau's early activities involved the supervision of abandoned and confiscated property, its mission was to provide relief and help freedmen become self-sufficient. Bureau officials issued rations and clothing, operated hospitals and refugee camps, and supervised labor contracts. In addition, the Bureau managed apprenticeship disputes and complaints, assisted benevolent societies in the establishment of schools, helped freedmen in legalizing marriages entered into during slavery, and provided transportation to refugees and freedmen who were attempting to reunite with their family or relocate to other parts of the country. The Bureau also helped black soldiers, sailors, and their heirs collect bounty claims, pensions, and back pay.

The act of March 3, 1865, authorized the appointment of Assistant Commissioners to aid the Commissioner in supervising the work of the Bureau in the former Confederate states, the border states, and the District of Columbia. In Alabama, operations began in July 1865 when Brig. Gen. Wager Swayne took command as Assistant Commissioner. Bvt. Brig. Julius Hayden succeeded Swayne and served

from January to March 1868. Col. Oliver L. Shepherd served from March to August 1868, and Col. T. H. Ruger held the position of Assistant Commissioner for only a few days in August before the arrival of Bvt. Lt. Col. Edwin Beecher later in that month. In January 1869, in accordance with an act of July 25, 1868 (15 Stat. 193), Bureau operations in Alabama were terminated except for the educational functions and the collection of claims. Colonel Beecher remained in Alabama as superintendent of education and held that position until the office was closed in July 1870. The majority of Bureau officers and agents in Alabama were active duty military officers, and for the first 2 years of the Bureau's existence in Alabama the agency doubled as the military command for the district. Brig. Gen. Swayne, for example, served as Assistant Commissioner and District Military Commander for Alabama from 1866 to 1868. As a consequence of the wide use of military officers to staff the Bureau, the agency constantly struggled with issues of continuity as well as a lack of personnel to staff the various field offices. At one point at the end of 1866, the Bureau could only staff eight stations in Alabama due to a critical shortage of qualified personnel.

While the work performed by Assistant Commissioners in each state was similar, the organizational structure of staff officers varied from state to state. At various times, the staff could consist of a superintendent of education, an assistant adjutant general, an assistant inspector general, a disbursing officer, a chief medical officer, a chief quartermaster, and a commissary of subsistence. Subordinate to these officers were the assistant superintendents, or subassistant commissioners as they later became known, who commanded the subdistricts. The major subordinate field offices for the Bureau at Alabama included headquarters at Demopolis, Eufaula, Garland, Greenville, Huntsville, Mobile, Montgomery, Opelika, Selma, Talladega, Tuscaloosa, and Tuskegee. Under the direct supervision of the subassistant commissioners were the civilian and military agents. Occasionally, the Bureau retained military officers in a civilian capacity after the termination of their military service. For a list of known Alabama subordinate field office personnel and their dates of service, see the Appendix.

The Assistant Commissioner corresponded extensively with both his superior in the Washington Bureau headquarters and his subordinate officers in the subdistricts. Based upon reports submitted to him by the subassistant commissioners and other subordinate staff officers, he prepared reports that he sent to the Commissioner concerning Bureau activities in areas under his jurisdiction. The Assistant Commissioner also received letters from freedmen, local white citizens, state officials, and other non-Bureau personnel. These letters varied in nature from complaints to applications for jobs in the Bureau. Because the assistant adjutant general handled much of the mail for the Assistant Commissioner's office, it was often addressed to him instead of to the Assistant Commissioner.

In a circular issued by Commissioner Howard in July 1865, the Assistant Commissioners were instructed to designate one officer in each state to serve as "general Superintendents of Schools." These officials were to "take cognizance of all that is being done to educate refugees and freedmen, secure proper protection to schools and teachers, promote method and efficiency, correspond with the benevolent

agencies which are supplying his field, and aid the Assistant Commissioner in making his required reports." In October 1865, a degree of centralized control was established over Bureau educational activities in the states when Rev. John W. Alvord was appointed Inspector of Finances and Schools. In January 1867, Alvord was divested of his financial responsibilities, and he was appointed General Superintendent of Education.

An act of Congress, approved July 25, 1868 (15 Stat. 193), ordered that the Commissioner of the Bureau "shall, on the first day of January next, cause the said bureau to be withdrawn from the several States within which said bureau has acted and its operation shall be discontinued." Consequently, in early 1869, with the exception of the superintendents of education and the claims agents, the Assistant Commissioners and their subordinate officers were withdrawn from the states.

For the next year and a half the Bureau continued to pursue its education work and to process claims. In the summer of 1870, the superintendents of education were withdrawn from the states, and the headquarters staff was greatly reduced. From that time until the Bureau was abolished by an act of Congress approved June 10, 1872 (17 Stat. 366), effective June 30, 1872, the Bureau's functions related almost exclusively to the disposition of claims. The Bureau's records and remaining functions were then transferred to the Freedmen's Branch in the office of the Adjutant General. The records of this branch are among the Bureau's files.

Constrained by limited resources, Southern opposition, and the politics of Reconstruction, the Bureau faced an enormous challenge in its efforts to assist the freedmen and refugees. Its relief efforts, without question, saved thousands of southerners from starvation. Its attempts to assist freedmen to become self-sufficient, to provide public education, administer justice, and, to a lesser degree, to provide land, all worked with varying degrees of success to lessen the difficulties during the transition from slavery to freedom. One of the Bureau's greatest legacies is the body of records it created and received during the course of its operations. These records are arguably some of the most important documents available for the study of the Federal Government's policies, efforts to reconstruct the South, and Southern social history and genealogy.

THE FREEDMEN'S BUREAU IN ALABAMA

The Freedmen's Bureau major activities in Alabama generally resembled those conducted in other states. The Bureau issued rations to both freedmen and white refugees, supervised labor contracts between planters and freedmen, administered justice, worked with benevolent societies in the establishment of schools, and assisted freedmen in locating land.

Shortly after accepting the position of Assistant Commissioner in Alabama, Brig. Gen. Swayne requested permission from the Freedmen's Bureau headquarters in Washington, DC, to set aside 1,225 acres of land on the Broward Plantation near Montgomery for freedmen. The plantation had been abandoned shortly before the

end of the war and was confiscated by Federal authorities. Montgomery Home Colony, established on some of this land, became the largest of several "home colonies" set aside to provide services for the freedmen. Home colonies were also established at Talladega, Mobile, Garland, Butler County, Montgomery, Selma, Demopolis, and Huntsville. The colonies were not self-sufficient communities of freedmen like those found in South Carolina or Louisiana. Instead, the colonies were distribution centers where the Bureau disseminated rations, clothes, seeds, and tools; processed claims; provided medical care; and organized services for the infirm, orphans, and the elderly. The central functions of these colonies were organized around a freedmen's hospital. The freedmen's hospital at Montgomery offered services to all races. From November 1866 to August 1867, it treated 168 refugees (whites), 5 of whom died. During the same period the hospital treated 6,058 freedmen, of whom 162 died.

From 1865 to 1867, Alabama suffered repeated and massive crop failures due to drought or frost conditions. During the same period, the state was swept by a series of epidemics, with smallpox proving the most deadly disease affecting the freedmen. In addition to medical care, one of the most important duties for the Bureau in Alabama was the issuance of rations to refugees and freedmen to stave off malnutrition and starvation.

The Alabama Bureau also expended great resources and energy mitigating contract disputes between freedmen and white landowners as well as attempting to overturn draconian "black codes" enacted by the Alabama State Legislature and signed by the Governor. In his 1866 annual report to the Washington, DC, headquarters of the Bureau, Swayne complained that white landowners rampantly defrauded freedmen of benefits spelled out in their labor contracts.¹ However, Swayne complained most extensively in this report about a particular set of "black codes" passed by the Legislature late in 1865 as vagrancy laws. These codes were passed shortly before Christmas after widespread complaints by white landowners that freedmen refused to work during the Christmas week. Apparently, freedmen expected to continue the tradition of time off from work at Christmas dating back to the antebellum years. Brig. Gen. Swayne charged that these laws returned freedmen to a state of slavery. First, he pointed to the authorized use of chain gangs in which freedmen worked with no compensation for even the most minor offenses. Second, the newly established probate courts often worked against freedmen. They were responsible for settling contract disputes between freedmen and white landowners. However, one component of the law passed by the Legislature stipulated that freedmen were not allowed to testify against whites or serve on juries. In cases where the courts found in favor of the white landowners, the presiding judge had the option of forcing freedmen into uncompensated labor for the white landowners or impressing freed-

men's children as free laborers for the litigant. The black codes also authorized county officials to impress orphaned children as laborers on local plantations. Swayne was able to convince the Alabama Legislature to eventually overturn most of these codes. In districts where he could not force the probate courts to fairly enforce the law, he set up special freedmen's courts to hear complaints.

However, Swayne was unable to convince the Legislature to overturn provisions of the vagrancy laws that allowed widespread arrests of freedmen. The code authorized local and state law enforcement officials to summarily arrest those freedmen without contract papers who were allegedly causing "disturbances" in public places and roads. The normal punishment under this penal code was forced labor on nearby plantations. Finally, in March 1867, the Bureau saw this law overturned through the Military Reconstruction Bill for the District of Alabama (14 Stat. 429).

The Freedmen's Bureau in Alabama had a major impact in providing education for freedmen from 1866 to 1869. Due to its limited budget and resources, the Bureau was unable to directly establish and operate the great number of freedmen schools needed. However, the successive Assistant Commissioners proved very adept at finding other means for establishing these schools. They successfully implemented a three-way partnership program in which a wide variety of Northern relief societies flooded the state with resources to build schools, money for books and teachers, or volunteer members who instructed the freedmen for no fee. The freedmen were often responsible for actual maintenance of facilities as well as contributions of money and resources for upkeep of the local schools. Bureau agents oversaw the education program and provided land and protection for the schools. The results of this program were impressive. At the beginning of the school year in October 1866, there were 3,100 freedmen in classes taught by 68 teachers. By June 1867, these figures had grown to just under 10,000 students instructed by 150 teachers.

RECORDS DESCRIPTION

The volumes reproduced in this microfilm publication were originally arranged by type of record and thereunder by volume number. No numbers were assigned to series consisting of single volumes. Years later, all volumes were arbitrarily assigned numbers by the Adjutant General's Office (AGO) of the War Department after the records came into its custody. In this microfilm publication, AGO numbers are shown in parentheses to aid in identifying the volumes. The National Archives assigned the volume numbers that are not in parentheses. In some volumes, particularly in indexes and alphabetical headings of registers, there are a number of blank numbered pages that have not been filmed.

The volumes consist of letters and endorsements sent and received, press copies of letters sent, registers of letters received, fair copies of letters received, letters and orders received, registers of freedmen issued rations, special orders and circulars issued, registers of bounty claimants, reports, registers of contracts, registers of complaints, registers of patients, registers of disbursements, account books, miscellaneous records, and monthly reports forwarded to the Assistant Commis-

sioner. The unbound documents consist of letters sent and received and endorsements sent, reports, applications for relief, labor contracts, rosters of officers and employees, court records, special and general orders and circulars received, and miscellaneous records. The unbound records also contain monthly reports; oaths of office; applications of freedmen for rations; and records relating to claims, court trials, property restoration, and homesteads.

From June 1866 to January 1868, Assistant Commissioner Swayne also served as the military commander of Alabama. He therefore created and received records in both capacities. The dual function of the Assistant Commissioner resulted in a succession of changes in the official headings used on correspondence and issuances. The title "Office of the Assistant Commissioner" was changed in June 1866 to "headquarters, District of Alabama," and in August 1866 to "Headquarters, Subdistrict of Alabama." The heading "District of Alabama" was used again from March 1867 until superseded by "State of Alabama" in February 1868.

The dual function of the office is also reflected in the recordkeeping practices for that period. Although the Assistant Commissioner generally maintained separate records for each of his capacities, in the case of letters and endorsements sent the records were frequently combined. Wherever they were separable, the records created by the Assistant Commissioner in his military capacity were placed with the Records of United States Army Continental Commands, 1821-1920, RG 393.

The three volumes of registers of letters received and endorsements sent, May 1867–December 1868, 1 (161), 2 (162), and 3 (163), are arranged by time period and have name indexes. Many of the letters entered in the registers are in the unbound series of letters received described below. The entries in volumes 1 (161) and 2 (162) are arranged alphabetically by initial letter of surname of writer and thereunder chronologically. Those in volume 3 (163) are arranged chronologically. Volume 3 (163), June–December 1868, includes no endorsements.

The single volume of endorsements sent, June–December 1868 (168), is arranged chronologically and has a name index. Cross-reference citations are to registers of letters received. The endorsements during the period May 1867–June 1868 are filed in the registers of letters received, volumes 1 (161) and 2 (162).

Unbound letters received, December 1865–December 1868, are arranged chronologically. Most of the letters for the period May 1867–December 1868 are marked with file numbers that correspond to entries in the registers of letters received. However, some of the letters for that period appear to be unregistered.

The single volume of special orders issued and received, June 1867–November 1868 (169), are arranged by type of record and thereunder chronologically and has a name index. The orders received were from the Assistant Commissioner's office and related to affairs in the Talladega subdistrict.

The unbound general and special orders and circular letters received, December 1865–November 1867, are arranged chronologically.

The unbound miscellaneous records, 1865–68, are arranged by type of record. The series includes copies of monthly returns of Bureau stores (February–June 1867), reports on indigents (October 1865), reports on rations issued (July 1866), and bills of lading (May 1866–January 1867). The series also includes invoices and receipts of commissary stores (June–October 1866); contracts (May 1865–Mar. 1866); and miscellaneous papers, including some deeds dating from 1859.

TALLADEGA (FREEDMEN'S HOSPITAL)

The single volume of letters sent, August–December 1868 (170), is arranged chronologically and has a name index. For letters sent for the period May–July 1866, see volume 1 (185), mentioned above, of letters sent by the surgeon for the Freedmen's Hospital at Selma.

The single-volume register of patients, February 1867–November 1868 (172), is arranged alphabetically by surname of patient and thereunder chronologically.

The single volume of morning reports of sick and wounded, September 1867–December 1868 (171), is arranged chronologically.

Unbound miscellaneous records, January 1866–May 1867, are arranged by type of record and thereunder chronologically. The records include school reports, ration reports, affidavits, complaints, and statements about threats of personal violence and breaking of contracts.

TUSCUMBIA

The records for the subassistant commissioner at Tuscumbia include a single volume of letters sent, May–August 1868 (159), and a single volume of fair copies of contracts, November 1865–March 1868 (160). Both of these record series are arranged chronologically, and the single volume of letters sent (159) has a name index.

TUSKEGEE

The single volume of letters sent, September 1865–April 1866 (154), by the assistant superintendent at Tuskegee is arranged chronologically and has a name index. Much of the volume consists of weekly reports sent to the office of the Assistant Commissioner for the period September 1865–April 1866. The volume also contains pay receipts for persons serving as election registrars for the period September–October 1867. There is also a breakdown by district on the number of voters registered by each registrar.

The remaining records for the assistant superintendent at Tuskegee include unbound monthly reports of rations issued, February–April 1866, and a single-volume register of patients from an unidentified hospital, 1865–66 (175 Ark.). The monthly reports are arranged chronologically. The single volume register of patients from an unidentified hospital was listed among the Arkansas book records, but the patients are from Alabama.

Records in other record groups supplement those of the Assistant Commissioner. In Records of United States Army Continental Commands, 1821-1920, RG 393, are records of the military district that included Alabama. Records relating to employment and welfare of freedmen and abandoned property before the establishment of the Bureau are among Records of Civil War Special Agencies of the Treasury Department, RG 366. The records of the Freedman's Savings and Trust Company, 1865-1874, in Records of the Office of the Comptroller of the Currency, RG 101, contain information relating to former slaves who maintained accounts with the bank branches at Alabama.

There have been numerous books, articles, and dissertations published about the Freedmen's Bureau and its operations. For general background, see Paul S. Pierce, *The Freedmen's Bureau, A Chapter in the History of Reconstruction* (Iowa City, IA: 1904); George R. Bentley, *A History of the Freedmen's Bureau* (Philadelphia, PA: 1955); and Elizabeth Bethel, "The Freedmen's Bureau in Alabama," *The Journal of Southern History* XIV (February 1948): 49-92.

Several books written about Commissioner Oliver Otis Howard include *Autobiography of Oliver Otis Howard* (New York, NY: 1907); John Alcott Carpenter, *Sword and Olive Branch: Oliver Otis Howard* (Pittsburgh, PA: 1964); and William S. McFeely, *Yankee Stepfather: O. O. Howard and the Freedmen* (New Haven, CT: 1968). For a history of the Freedmen's Bureau and Reconstruction in Alabama, see Peter Kolchin, *First Freedom: The Response of Alabama's Blacks to Emancipation and Reconstruction* (Westport, CT: 1972).

To transmit his report for
June 1865 to J. W. Conway
Genl. Supt. Freedman.

Bureau of Free Labor
Montgomery Alabama.
July 1st 1865

J. W. Conway
General Superintendent Freedmen.

Sir:

I have the honor herewith to submit my report for the month ending June 30th 1865.

The past month has been one of great change in many respects. The condition of County Districts, as well as the order and industry of the City, has vastly improved. There is much less ragrancy on the part of Freedmen, and for less abuse and ill-treatment on the part of their late masters since the publication of President Johnson's Amnesty Proclamation, and since his interview with delegations from Southern States have been made public, our Citizens have been more open and frank to acknowledge that Slavery is forever dead.

Few, relinquish their hold reluctantly and are hardly willing to bury the corpse from their sight. A few, the more rebellious, prefer to kill the Negro than to see him free.

But events hasten. Our Victory urges on to new achievements. Show who our vast ago yielded up their slaves to "Freedom" and accept

ted the new order of things with cheerfulness, and
now agitated of mind by fears of Negro Suff.
frage. Thus it is by the will of Heaven, by
Divine right, that the Nations Freedmen are
coming, surely and speedily to occupy their
rightful position - equality with white men
in the eyes of the Law.

Howe Colony

The application for the assignment of lands
to be used temporarily for the colored people,
made by you to the Military Authorities, was refer-
red to me on June 2nd 1845. designating sev-
eral plantations which might be used for our
purpose. I at once examined these plantations
and moved from Camp two hundred and fifty
persons upon one of them in order to raise
the crop, as the season for corn culture was
rapidly passing away, this being the only crop
of any importance raised in this portion
of the State. Two other plantations, as we were
moving on to them, were released and given
back to the owners. Afterwards two more were
released. One other was so near town as
to be inconvenient to us, as straggling into and
out of town would greatly annoy us, and
disturb the industry of the place. This
left us with but two plantations under our
control, and one of them was small having
but few quarters, no house, water source and

poor crop small, and, on the whole, useless
for our purpose. I decided not to use it. We
have therefore held on to the first place, em-
bracing one thousand acres, and sowed about
five hundred acres of corn. But owing to the
fact that the corn entirely neglected in the
early part of the season, when it ought to
have been worked, coupled with a severe
drought, and being unable to draw any
mule. General Smith having given out to Atkins
all his old stock before my arrival here,
our farming operations will not be so suc-
cessful and profitable as I could wish.

Had we commenced our operations on
May 1st instead of June 1st, our results would
have been far more encouraging.

In the mean time, while some have been enga-
ged in agriculture, others have been busy erec-
ting shops and plain houses at the Freedmen
Colony to protect women and helpless chil-
dren against the coming fall and winter storms.
This undertaking has been delayed for the want
of a sufficient number of common tools.

Lately, however, the Post Quarter Master turned over
to me fifty axes, and, before this report shall
have reached you, the last vestige of the Freedmen
Camp across the river, will be broken up, and
they, with the unemployed Negroes in town will
be made comfortable on the plantation eight miles

from the City. I have made extra effort to remove this Camp before, but I saw no object in moving it till I could improve the comfort of the colored people in it. And as we have been unable to draw teams for our own use, I have thought, while dependent upon teams of the Past, for hauling our rations &c it was not practicable to make the change till we could profit by so doing. The time has now come when we can make the change with safety and comfort.

Hospitals

Application for lumber sufficient to build at the Home Colony a plain and commodious Hospital for freed sick as fall upon our hands has been made. We now wait the reply. It is very difficult to procure buildings either in the City or in the adjoining country, for hospital purposes. We greatly need a building where small children can be provided for during the sickness of parents. As we are now situated, it often happens that a Mother is taken sick, having two or three small children who are obliged to go to the hospital with her, for she has no one to care for them in her absence. Had we a place to put such children till the Mother recovers, it would relieve the hospital and be far better for the children.

An Orphan Asylum is also greatly needed. The number of children is very great and among them many Orphans.

I am located in a section where Negroes are regarded as the most popular and profitable mode of investing Capital. They are always saleable. There are hundreds of plantations in this section whose only net profits consisted in the increase and growth of negro children.

This being the case vast numbers of children, helpless and friendless, must be cared for. The demands for an Asylum are urgent and I hope before fall to establish one. If an appeal were made to the benevolence of North I doubt not sufficient aid could be obtained.

The liberal aid I have received from Hon James Yeatman, President Western Sanitary Commission, and Hon Francis G. Shaw, President National Freedmen's Relief Association, New York City, for similar purposes in other sections, renders me confident of material support in this instance.

Marriage Certificates

Feeling the necessity of regulating the conjugal relations of the Freedmen I have inaugurated a system by which an accurate record is kept of all lawful marriages and certificates are issued to the married parties.

The annexed Circular will explain my method.

Resignation!

Captain J. L. Brown, A. A. Q. M. of this Dept
mut. handed in a request to be relieved, assigning
as a reason, that he was not contented with his
situation. I approved and forwarded it, as I am
confident that a man to be useful in this
Dept., must take a deep and abiding interest
in his work, and feel that his toil is not
drudgery. One should be sustained and ani-
mated by the thought that he is giving his ener-
gies to the relief of an oppressed people.
My relations with Captain Brown have been cordial
from the beginning, and I fear it will be difficult to
fill his place.

Conduct of Freedmen.

War naturally quickens the energies of a Nation
and gives a wonderful impetus to National
life. These Southern States give striking evi-
dence of the truthfulness of this statement.
The energy with which the inhabitants met
the emergencies of the rebellion was worthy of
a nobler cause. But the quickening influences
of war have not been felt by the white race
only. The energies of the colored race have
been aroused and called forth. Superadded
to the quickening effects of war, is the inspira-
tion of a newly acquired "Freedom". The future

to them is radiant with new hopes. As the burden
of Slavery is lifted, their purposes rise accord-
ingly. Already two colored schools are in
progress and largely attended. These schools
are self-supporting. Children of color walk
our streets with books under their arms, not-
withstanding it is contrary to the statute law
of the State to teach a colored child to read.
The general conduct of the Freedmen is good.
In many cases they receive nothing more than
a support for their work. The plantations of
many of their former owners have been
desolated by war, and nothing but a sup-
port will be made. Citizens who are wil-
ling to adapt themselves to the new order
of things find but little trouble in contrib-
uting their help. There are a few citizens
in every neighborhood who cause trouble,
but Freedmen are not ill-treated as much as
our mouths are.

Petitions

Petitions through Military channels, constantly
come in for aid to regulate Freedmen-
affairs. The last from ^{the citizens of} Grand Ala. opposite
Columbus. This makes our field of operations very
large, especially for our limited help. We are
looking forward, with hope, to the early arrival
of the Secretariat Commission of the State,
Montgomery, being the Capital of the State, and

the largest city of this portion of the States, it is natural for business to center here, and the manner in which things are done here will give shape to similar transactions in other sections. Realizing this fact I have endeavored to act with caution and deliberation.

My experience thus far, confirms my belief in the ultimate success of our System.

In the contest between slave and free labor, the issue is not doubtful to my mind.

These broad fields, now desolated and neglected, will be made to yield a more beautiful harvest than ever before: the lost millions, accumulated by years of unrequited toil will be replaced, but it will be by the industry of well directed free labor.

I have the honor to be
with much respect

Yr Obedt Servt.

Dear Sir

Dear Sir. As Agent
of the Bureau of Freedmen & I beg leave to make
the following report of the condition of the
Freedmen & the school at Mt Meigs. The freed-
men are doing very well I have but few compl-
aints of mistreatment except in settlement of
wages due of which much of my time is employ-
ed to get settlements for them I have generally
succeeded in getting settlements without suits, and
where they have had to sue for their wages I have
found the Magistrates disposed to give them
full justice. The Freedmen seem to much better
satisfied and are behaving remarkable well.
From my experience and consulting with the
Planters I believe they are doing about two-thirds
work of what they did when slaves. I believe they

are the best labours that we can get
for our climate & cotton raising and at
the present price of cotton can be made profita-
ble to the farmer. The school under my
charge is doing only moderately well we
have about an average of 35 scholars at school
the children have advanced as fast as
could be expected (and in some cases a very
rapid progress) I have the services of a very
competent teacher as regards her education
and her talent for imparting instruction she
is well qualified but as reliable as she should
be. In consequence of more of my time being
occupied I shall have to respectfully ask
for my pay to be increased from twenty five
dollars per month to forty dollars per month,
all of which is respectfully submitted

Sir

In compliance with the instructions contained in your letter, dated Head Quarters District of Alabama, Montgomery Ala., May 31st 1867. I have the honor to submit the following report.

Employees.

Since the 1st of January 1867, there has been one Clerk, and one Messenger, employed in this office.

Freedmen's Affairs.

As far as I can learn the freedmen are working very well this year. There are not many complaints of breach of contracts, and in most of these cases the fault is on the side of the employer.

I think the complaints of outrages, and injustice are decreasing, there having been but about thirty (30.) complaints since the first of January and there has been no report of murder of freedmen
1 over 1

since that time,

There have been but a few applications to revoke indentures of apprenticeship under General Orders No. 3, and these, the Judges of Probate, at my request, have always complied with.

There is no provision made by any of the Counties of my District for the support of their poor.

There have been thirty three (33) applications for pay and bounty of discharge colored Soldiers made out at this office and, forwarded to Washington since the 1st of January, 1867.

The corn sent by the Southern Famine Relief Commission for the County of Montgomery was distributed by me for the month of May 1867, to four hundred and twenty (420) white and four hundred and eighty three (483) colored persons.

Colored;

I have the honor to inform the following
General Robert of your business letter in this Sub-
Dist for the month of October 1865.

The greatest
trouble among the Freedmen and Employers that has be-
come a source of complaint during the month, is that
the Employers have not made the necessary just and
equitable settlements with the ^{laborers} ~~men~~. In many cases they have
received the Cash and sold the same without their
consent or knowledge ~~of the Freedmen~~ thereby depriving
them of their just portion. I am happy to say that
there is connected with my duties in this Office the
Office of Notary Public and can assure you that when
such cases as the above have come before me, I examine

the functions of the latter, to the best advantage
attainable at Civil Law. Two or three cases of
Employers selling their crop without the knowledge of
the Labourers have been referred to the several Magistrates
previous to my referring the appellations of Wages Public -
requesting them to bring suit for violation of Contract
on the part of the Employers. In all of the cases
heard from the same have been equitably ~~settled~~ ^{adjusted}.

There has been made at this Office during
the month of June 18, settlements between the
Employers & Labourers, careful observation has been
given ~~to the~~ ^{to the} accounts standing against the Labourers
in the way of calling the same over by items to
them. and in this manner of settling a great
many charges have been thrown out and not allowed
to be paid for. Nevertheless in this way the Employers
became satisfied and were willing to abide by my
decision.

There is at present in this Sub. Dist. a
great amount of suffering, from the want of food
and fuel. A great ~~part~~ ^{part} of the supply of clothing
that was at my disposal has I think been very
beneficial in bestowing comfort to them and can
say that the Refugees & Freedmen have been very
well supplied. But in the way of supplying

them with food little has been done save to
those living in and around the City. To these
rations of fresh Beef has been issued to them
from the surplus quantity that was on hand
at the time of suspending the Donp distribution.
Out of this amount of Beef Nine hundred and
forty (940) pounds has been expended to the District
of this City at a cost to the Government of
Sixty five ⁸⁰ Dollars (\$65.80). Nothing as yet can be
done - as yet - to relieve those who live 4 or 5 miles
from the City - as the Beef is the ^{single} ~~only~~ ^{supply} ~~available~~
that the ~~Government~~ ^{Government} now have.

A supply of Cornmeal & Flour has been re-
ceived from the Chf. Q. M. which will be issued, as
worth, to the most needy.

Personally appeared before me Chas. Scott,
Sr. Capt and Provost Marshal Post of
Montgomery Ala. Franklin St. Jamison
Private "Col" & Terra Infidel, who
upon oath deposeth and saith
that about three weeks ago in a
conversation with one Dr Robinson in
the city of Mont. relative to shipping
negroes to Cuba. he Robinson said
that a friend of his (quitting name)
had shipped a cargo of negroes for
Mexico - and that when at sea they
were picked - good from bad and
that the poorer class were sent to
Cuba and the other to Mexico - said
good lands would bring 1500 to 2000
dollars in Cuba and wanted me to
go in with him get negroes and
ship to Cuba. that I could make all
of the money that I wanted he Robinson
said that Slavery would be established
in Mexico inside of two years. that he
Robinson had negroes in Mexico that had
been taken from the State.

That about 3 days ago I met one James
Lulliman at Demopolis Ala. whom I
first overheard in conversation say that
somebody else had accused him of

shipment to Davis Durne Co. or could
put them in charge of any steamboat
Club to be declined by him to Davis
D. Co. he said that they ship
the negro from Mobile boat
for Pensacola. that they were
transferred to vessel out side for
Cuba. that the Turpentine
work was all a sham that
they ship a only a few there and
then only the ignorant one that they
would send all of the smart ones
to Cuba. and that the "guerrilla"
(his party) numbered about three
hundred that the majority of them
were discharged Federal Officers and
Soldiers. that they had other
business - cotton stealing etc
that I think Davis Durne Co. and
are the main parties. and that
the Reeds are equally interested
and have immediate charge of the
Turpentine work. that I am an
Employer of Arthur Post of Montg.
and that I have every reason to believe
that the kidnapping of negroes for
Cuba market is carried on to a
great extent in this State and that.

sending negroes to Cuba. that though
it was the truth no good man son of
a bitch could accuse him of it.
I had further conversation with him
on the subject. left with him he at
first proposed to give me ten dollars
and of towards twenty five dollars
for all negroes I could hire to
go to the Turpentine plantation
in Baldwin Co. Ala. furnished
me a copy of the contract to be
used saying that it was a good
thing also furnished me the address
of the parties in Mobile to ship to.
The Sullivan afterwards told me
that he was engaged in shipping
negroes to Cuba and had been for the

State of Alabama, Personally appeared before
Montgomery County, and Madison W. Simps of
Schubert's County in said State and made oath
that

on or about ^{Saturday} the third of March that I allowed
certain Freedmen under contract with me to
have a Civil party, and after a small
part of them had assembled there came
six White-men viz) Marias Wallace,
Joseph Summers, James Able, Tix Wilkes and
two others (names unknown) The first three
entered came into my yard and from
the Freedmen off threatening that they would
shoot me and the Freedmen unless we
done as the ordered They also inflicted some
severe punishment on the Freedmen as they
passed out of the House by way of stripping
them with their Pistols which they held
in their hands, I then came to the yard
gate and ordered them to leave my place
which they refused to do threatening to
take my life if I did not go back
to the House they kicked me and fired
one shot from a Pistol and attempted to
take me out of the yard which I prevented
by holding to the railing and the timely
interference of my Mother - They then
proceeded to my ^{dormer} house and took

forced a freed woman² 'Phoebia' from said dwelling
threatening to take her life if she refused to go
They also pulled me out of the door threatening
to shoot me if I made any resistance
pirious to their entering the House they called
out ^{Call on Boop} and three other men 'porties' above mentioned
came to their assistance but did nothing. They
then proceeded to the Cabin yard & severely thrashed
the said Freed woman 'Phoebia' then they told
her & me that they did not want to hear any
thing more of this, and that we had to stop
having parties. They then started off firing
several shots from their pistols as they went

On Monday^{morning} following the said Freed woman
and a "Witness" went to Cipeta to consult a
Magistrate what was best to do, he advised
her to have^{the} said porties arrested and punished
he then issued a Warrant for their arrest but
did not have it executed. On Tuesday night
following the three first named persons of said
porties returned and ~~found~~ ^{finding} that we were
not in the House proceeded to a Boop where
we had concealed ourselves ^{"previous to"} their
coming to the Barn they called at the gate
but on receiving no reply proceeded to one
of the Cabins & forced ~~the~~ a negro man "Lewis"
to accompany them to search for us, firing off
a pistol in the yard at one of my dogs.

on arriving at the Barn they ordered the said
 "Lewis" to go in & ~~bring~~ ^{search for} us ~~out~~ while they stood
 at the front & rear of said Barn with pistols
 in hand ready to shoot us if we attempted
 to escape threatening that if we did not
 come out that they would set fire to the
 Barn & burn it down, on hearing this I thou-
 ght it would be best to show myself & they
 telling the said Lewis "at last" that they would
 compromise it if we would come out &
 then stepped to the Barn door carrying with
 me a double barrel shot gun, for self protection
 As I stepped from the Barn door ^{one} of them stepped
 up to me seizing the gun by the barrel also
 presenting a pistol threatening if I did not
 give up said gun that he would shoot me
~~in the~~ or raised the gun & he stepped off about
 five paces & shot off both barrels stating
 that "now boys we have them" he then set the
 gun down & proceeded to say "Probatia" & struck
 with his fist or pistol & told her if she did
 not walk on in front of him that he would
 shoot her, the other two then took hold of
 me & ordered me to walk along or that
 they would shoot me, they then proceeded
 to the outer part of the barn where they had
 left some Hickory & they they ordered Probatia
 to lay down or that they would shoot her-

they then jerked her on to the ground & whipped
her severely so that she was unable to be up
for several days. They then came on me & bore
me to the ground & inflicted on ~~my~~ person
about twenty five lashes with their sticks or
Hickris, threatening to shoot me if I made
any resistance. They then took the said "Luis"
& flogged him severely, & threatened to shoot
him if he attempted to resist. My Mother
came up during the time with a light for
our assistance. They threatened to take her
life if she did not shut her mouth & keep
still. They then left ordering the said Freedwoman
^{Florida} to stop the manumission or that they would kill
her & me to

In a few days after there came another
party viz' Coy Hugh Wallace, Tip Philips, Acoc
Peter Indrick, ^{and Jackson} James, stating that I would
have to send off the said Freedwoman "Pocbia"
or that they would have her arrested for threats
that she should of made to burn up a Mill
place of Hugh Wallace - which said woman
did not know he owned or did not even
know where it was situated. I insisted that ^{she} ~~they~~
~~would have her arrested~~ but Wallace said that that
would not satisfy the people, that she would
have to leave the place or that ^{scattered} ~~her~~ ^{our} life would be
in danger, they stated before they left that I must
see that she left the place which she did for the
safety of her life. Madison. W. Snipes

I have decided in the case of which I send you the testimony in that the black mare should be turned over to the Col by George and as I have my doubts in authorizing a State officer to seize and turn over any species of property over the value of fifty dollars and have investigated this case only as an agent of the Freedmen Bureau I request of you to look over the testimony and if you believe the the Col man George should have the mare furnish him with some one to place the mare in his possession and also have the cost of investigation collected which is thirteen dollars & fifty cents (\$13.50)

1 Robin Cowles Col. Man, Swore,
The mare was brought on The plantation when Gen.
Piersons Command was returning from Opelousa
Ala. Mr Cowles had lost several Mules at that time,
The boys were out gathering up stock to replace
those taken from the plantation for Mr Cowles,
I think ~~George~~ ^{was brought} The mare there in that way,
I was foreman of # of the plantation, The mare was
very poor when she was brought there, she was fed
altogether on Mr Cowles Corn & fodder, George never
did buy any corn or fodder for her, never heard
of George putting up any claim to her until he
left there, she was always regarded as Mr Cowles
mare, he had been foreman on the plantation about 19-
years, the mare was not worth much when she came on
the place she was there some time before she could be
used, George was in the employ of Mr Cowles, George was
present at the settlement made by Gov. Sherter. Gov. Sherter
~~settled~~ settled all the demands made by the negroes -
he made George make no claims for the mare.

that the mare was brought there

I was notified at the 2nd Trial. But, ^{could be} not there
in consequence of high water. My subpoena was
verbal, in hearing of this additional testimony
Mr. Brewster was to have the witnesses summoned,
I was at the first Trial, I considered it a fair
Trial, I was at the plantation at the time of
the settlement of Gov. Shuter with the Freedmen
The settlement was made by Gov. Shuter for Mr. Cowles
This settlement was a complete settlement made by
Gov. Shuter with the Freedmen of all claims be-
tween Mr. Cowles and the Freedmen, I understood
it as a final settlement between Mr. Cowles and
the Freedmen, George was present at that set-
tlement, Gov. Shuter said to the Freedmen if
they had any claims against Mr. Cowles to make
it known and he would settle them,
he did settle with each one, one by one (the
heads of families) and settled with this boy
George who was the head of his family,
George set up no claim against Mr. Cowles
for the Ware, George had claims, all of which
were settled, I think ^{the settlement made by Gov. Shuter} was about the last of Novem-
ber, it was the last of Christmas week before

Clanahan —

Testimony

George set up any claim to the mare, that
 I knew of. George was discharged from Mr
 Bowles employ on the 25th December 1865,
 it was the last of Christmas week when George
 made a demand on Mr Bowles for the mare,
 George staid on the plantation some days af-
 ter he received the order to leave, Mr Bowles was
 vexed at their remaining there and they were aware
 of that fact he believed that George demanded the mare
 to provoke Mr Bowles had heard no claims made to Mr
 Bowles for the mare up to that time George had said to
 him Blanchehan, that he would have to see Mr Bowles
 about the mare. This was after he had told the negroes
 to leave the plantation Gov Porter had but one settlement
 with the negroes Mr McCade made a settlement with
 the negroes ~~about~~ the 15th of December, at the request
 of Mr Chatterman & Blanchehan, ^{sanctioned it,} in dividing out the crop
 this was a full settlement with negroes for their part of
 the corn. He divided the fodder with the negroes after
 this some time before Christmas which was the final
 settlement for the year, no claim made for the mare
 when the fodder was divided. Mr Bowles was not on ^{plantation}

Mr Cowles wrote to him to dispossess all the hands
on the plantation 24th December, 1865.

Crosby Examined

Gov. Hunter did not ask any of the Freedmen
if they owned any horses or mules at the time
of the settlement, that he made with the Freedmen
Flem, had a mule and carried it off as his
own property, when George was making his ^{last} load
he came up and demanded of Mr Cowles, the
mare, about the last of October he ^{Clanahan when he first} called on the
^{nearby of Mr Cowles plantation} Freedmen on Mr Cowles plantation to point out which
was Mr Cowles stock, and which was theirs in the lot,
and Flem pointed out ^{a mule} as his, and George pointed
out mule as his, the mare was in the lot at the time
with the stock, and they said all the balance
of the stock in the lot belonged to Mr Cowles
and set up no claim to the mare.

v
Alex Howville
Julius Howville Cold
State of Alabama
Lowndes County
Before A. J. Perry Esq

Case No 2^d day of Dec 1867.

Below will be found a synopsis of the testimony of the witness examined in the above stated case except Cottingham, Wellingham and Jesse McWhorter. Reference is made to their report for the substance of their testimony.

James G Mc Dirm - heard the dogs and rallying of the hogs in the direction of defendants fields, but the balance of his hogs coming from the direction of the field, & near by - saw

Alex Howville & Julius Howville - told Alex that he was killing his hogs. Alex replied no - that it was his Corn that killed. Mc Dirm demanded reparation, as the fence was unlawful, which Alex refused to make.

William Mc Dirm - Was with his father when he met Alex, heard his father ask reparation of Alex, heard Alex say he reasoned - it was his Corn that killed his hogs. Heard Mc Dirm then ask Alex why he wounded the others so severely, which Alex denied.

Further testifies, that the fence is very bad, and stock were in the hole of going in - that Mc Dirms hogs had been in frequently.

Alexander Moncrief - Cold - Was pecking Cotton in same field the Corn was in, saw the hogs, told Alex Howville that "yonder was the hogs in again, Alex then left him, in company with his son Julius

and went off with his gun and dogs in the direction the hogs were, heard, soon after, the hogs rallying and squealing and the dogs baying. It was then 3 o'clock P.M. did not see

Alex Howville any more that evening. Hogs, when he first saw them, were tearing down Alex Corn, near the Cotton house. Hogs mostly black, thought them to be Mc Dirms hogs, though not certain. Hogs - when attacked by Alex and dogs ran in the direction of Mc Dirm, house. Fencer bad, & stack constantly in the field.

Defence
Alex Howville - denies killing the hogs but does not deny the injury to those wounded. Refused reparation at first and pleads that if hogs were injured, his Corn was also injured.

Julius Howville. Parted from his father in the chase after the hogs, met him at the fence where they put the hogs out. Did not see his father kill any of them.

Jack Howville was picking
Cotton across the branch on
the hill side, heard the noise
with the hogs and could
occasionally see Alex and
Julius - thinks he saw
them put the hogs out
and did not see any
injury done to any of
them - was several
hundred yds from the
parties and hogs all the
time.

J. C. Howville, white. The
fuel was not the best, but
might be called a tolerable
fuel. ~~The balance of his~~

and was allowed a continuance until

~~Nov 27th 1867~~ - Trial - Issued a summons for defendant
for J. A. Honvill, Saul Stahely, J. C. Honvill,
Susan Honvill, & Jack Honvill.

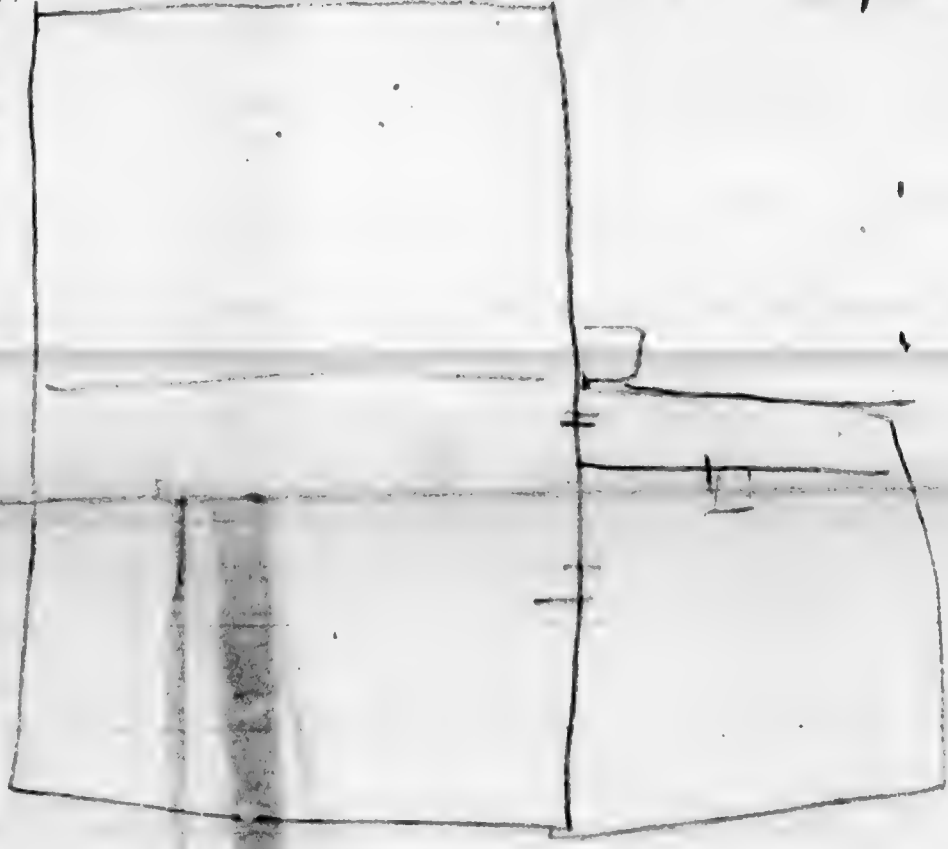

Dec 2^d 1867 - Case called for trial - parties appeared -

The plaintiff in support of his demand
examined seven witnesses, viz himself, William
McCune, Alexander Moseley, Sam Hunt
Honvill, J. W. Cottingham, S. B. Willingham
and James Merrhorth - and the defendant
examined in his ~~support~~ defence, himself, Julius
Honvill, Jack Honvill, and J. C. Honvill.
After hearing all the testimony and allegations,
and examining the evidence, I gave judgment
for the plaintiff for Ten dollars and Costs

The above is a transcript from my docket. The
evidence did not shew that Julius Honvill, son of Alex
(a boy of 14 or 15 years), killed the hog or wounded the others,
but there was no doubt left in my mind that as
to Alex Honvill, killing the hog & wounding the others.

J. A. Howille did ^{not} appear, nor did Mr. Stakely -
As the witnesses will likely be called before

the case -

Frank Toliver
v. J. J.

Beat a Neg Dec: the 18th 1867
In Justice Court

Maj Gibson

The Plaintiff claims of the Defendant
sixteen Dollars pr. Month for six
months labor for himself and wife on a
Contract entered into on the 14th of Jan 1867
with Wiley J. Gibson

Summons Issued for Defendant on the 16th Dec

The Parties appearing at trial the Defendant
stated to the Court that the Plaintiff
had violated his Contract in various
Respects openly and knowingly proving
the facts by Thos B Green and Henry Gibson
and said that every hand on his
Plantation would swear to the same
and wanted to have them subpoenaed

The Plaintiff having evidence to introduce
I thought it unnecessary the Plaintiff
said there was not a Freedman on the
Place would swear the truth for him
Inasmuch as he could not bring a
witness out of thirty or forty to prove
the Charges false brought against him
I thought him guilty and decided
accordingly making Gibson pay the Cost

I hereby Certify that the above state
ment and investigation of this case
is a true statement of the case and
of my Docket

Lt D. H. Williams

Sir

I have the honor to call your attention in relation to the Beef now furnished to these Hospitals - that prior to May the beef was of fair average quality - recently I have learned that the Contract calls for Tennessee beef - I presume that as usual with Contracts of this kind calls for an equal proportion of fine & hind quarters - I do not think that I receive such beef & what I do receive is of an inferior quality - particularly since the 1st of May - being of Young Cattle & mostly fine quarters - in this connection I would respectfully ask that the Hospitals were charged 18 1/2 Cents per pound - till the 1st of May - since which time the price increased to 16 Cents per pound - while the Sub Contractor who furnishes the beef - receives only nine Cents per pound - these of itself should show that it is impossible that the Hospitals receive such beef as it should receive when the government pays for the same 10 Cents.

I trust that this matter will receive your early attention.

Yours Very Respectfully

	Logan, J. 25th V.R.C.	July 12. 1867. Respectfully returned with the information that the representation of the Employee in the premises is untrue. I did not order him to leave his present quarters unconditionally and said nothing about his services being no longer required. I did order him to report to his proper Superior Officer and to say that unless he (the Employee) could confine his personal conduct to the limits of propriety, and his attention to his legitimate business I should withdraw from his use any property over which the G. M. Dept. had jurisdiction, his house included. The Employee in question - John Owen - has been insolent to me on several occasions of late without any provocation from me that I am aware of in fact I have never spoken to him for at least four weeks except yesterday. A short time since, after he had been to the Hospital darning every body and every thing my self included, I sent for him to come to my office, but instead of coming as I expected he sent his word by my Steward that "he was busy". I did not push the matter and did not see him. Yesterday my Steward called on me officially to preserve the peace here as "John Owen" had threatened

It is the offering of a meeting of persons at the Hospital who appear to be well enough to correct the chief of this description and to have nothing better to do. It was brought here by some worthless colored man living near the Hospital and disciplined with his aid by my clerk Mr. Sargent. I should not have thought the document worthy of attention for a moment had I not considered it as indication of what I have long been inclined to believe, that a class of worthless abandoned paupers were settling at Dog River and living on the Government. This has perhaps to some degree been unavoidable but it should now be stopped immediately. I apprehend that it is desired to have as few patients and certainly as few outside employees as possible at the Hospital. It is a charitable institution, temporary in its character, existing necessarily with the assistance of the Bureau and designed only to supply the lack of arrangement to provide for sick and destitute freedmen on the part of this Community. It is proposed that under a juster political rule and under the influence of bolder sentiment of humanity there have prevailed in the past there will before long be provisions made by State and County authority for the care of their sick and destitute so that aid from the Federal Government will no longer be necessary. In view of this I think very pains should

to talk to reduce the Hospital to the least possible minimum of patients. Only the extremely aged or the imbecile should be allowed to remain here for Asylums, and other than these classes mentioned all able bodied adults excepting Emptiques should be compelled to leave the place as soon as they are able to work. I think also that places should be found for the large number of children now at Dog River who are able to earn their own living. If this is not done they may be left on the hands of the Government at a time when it may be difficult to provide for them. I trust these views may meet your entire approval.

Respectfully returned to Brig. Maj. G. H. Tracy U.S.A. Sub. Act Commr through Lt Logan a. a. g. M. Maj. Tracy having stated to me on Saturday the 3rd ult. that the affairs of the G. M. Dept. were under his direction; that he had intended making a clean sweep of the present employees of that department, and that any legitimate Knight Mason would be favorably considered & retained & present the within named persons as suitable substitutes for those who had already retired and above place particularly that of the Watchman, it seemed to me should be filled without any necessary delay. The character of Williams I was prepared to believe for, having known him personally for nearly two years; but as it seems the Trade of his producers are credited in preference to mine I must of course be silent. The names presented, are respectfully withdrawn.

 Office of Chief Medical Officer

Circular Letter

Already some cases of Epidemic Cholera are reported to have occurred at some of the Landings on the Mississippi; and it is not unlikely that this disease may make its appearance at other places. It is therefore necessary to adopt such measures as will best tend to prevent its appearance, or control its extension among Communities.

The first effort of course will be to counteract the tendency to its spontaneous origin, and to avert or prevent its introduction from without, through direct communication with persons or objects believed to be infected.

It will therefore be necessary to observe the utmost care in procuring and preserving the best hygienic condition of every settlement, as relates not only to the localities, but also to personal Cleanliness. Strict attention will be given to the proper Sanitary policing of houses, yards, and streets, using freely disinfectants or absorbents (such as lime, Chlorine, Coal tar, plaster of Paris, Sulphate of Iron - whatever may be most readily obtained.)

Attention should also be given to the use of suitable kinds or quality of food, and its proper preparation by cooking; also the water used for drinking or cooking should be carefully examined, and when pure water cannot be procured in sufficient quantities, and the Spring or River Water contains organic impurities, it should be purified by distillation, or the common method preceptated by Permanganate of Potash. Four half a grain to one grain of the Crystallized Permanganate (or its equivalent in solution) added to one gallon of Water should produce a decided pinkish hue, which disappears within twenty four hours (if the salt has not been used in excess.) The water should then be drawn off, and is ready for use -

"Turbid Water, such as that of the Rio Grande, however

Mississippi and its tributaries, should be filtered, or allowed to settle before using. The deposit of impurities can be hastened by the addition of powdered alum in small quantities, well diffused by stirring."

Whenever a case of Cholera occurs, it will be the duty of the Medical Officer to see that the patient is isolated as far as practicable, and that the strictest attention be given to the Cleanliness of the person, Clothing - bedding - and of all the utensils used - and that disinfectants for the latter be freely employed.

All Cases will be recorded in the form of a special Report, according to the following form:

Name	Nativity	Age	date of Attack	date of Recovery	date of death	Remarks
						Surgeon U.S.A.

The treatment of successful Cases will be given in detail, and also the result of Post Mortem examination.

Every fact relating to the appearance of the disease, either by importation or local Cause, so far as ascertained, will be fully set forth in these Reports, and be sent to this Office through the Surgeon in Chief of the District at the end of each week.

Circular Letter
Regulations as to Requisitions for Medicine and Hospital Supplies

War Department,
Bureau of Refugee, Suffering, and Abandoned Lands -
Office of Chief Medical Officer -
Washington, D.C. July 10th 1867

Hereafter requisitions for Medical and Hospital Supplies will exhibit - in the case of Hospitals, its Clinical Capacity, that is the Number of beds provided for the Sick; - in case of Dispensaries or out door Stations - the estimated (approximately) Number of persons for whom Medicines are required will be stated in full, and its equivalent Number of beds (one tenth) also given; thus in a population of One thousand (1,000) persons where it is estimated ten per cent, would come under treatment the equivalent allowance of Supplies would be indicated for a hospital of One hundred beds.

The requisition must state the estimated total population - and then the estimated percentage of Sick to be treated - which in the above illustration would be One hundred Sick - This percentage will vary according to locality, general condition of the Community as regards habits, pursuits, age (whether a large proportion very old and infirm or the very young - or both) the hygienic condition, etc. - It will range in some places from five to fifteen per cent., or even more, depending upon the Section of the Country - the Season of the Year - Epidemic influences, etc.

When a requisition is for a permanent hospital and out door Sick combined - the Number of beds ^{in the hospital} will be stated - and the estimated Number of persons outside who would be entitled to Medical attendance and Medicines - and the equivalent Number of beds - will also be stated.

Requisitions for "Additional Articles"

will be made on a separate sheet of paper, and the reasons therefor will be distinctly and fully set forth in each case - to be transmitted to this Office through the Surgeon in Chief of the District - who will append such remarks respecting the necessity or non necessity of the issue as he may judge proper for the information of the Chief Medical Officer - No issues for these articles to be made until approved in this Office - Issues for Standard supplies will be made as heretofore -

It must be born in mind that it is not intended to furnish every article of the Materia Medica that may be considered as desirable or even essential for private practice - but the Standard Table as recently amended or slightly enlarged will be rigidly adhered to - as it is believed to contain all the essentials of practice.

The Government does not propose to supply all the instruments or remedies that the refinements of private practice would demand - but such articles as are readily obtained and can be successfully applied for immediate and general relief - and as will abate suffering in a helpless and dependent class - and prevent loss of life or permanent injury to health.

Office Commissary General of Subsistence
Washington

Bureau of Provisions Freedmen & Colored
District of Alabama
Montgomery Sept. 10th 1865

Sir

As the Honorable Secretary of War has granted the authority to commute the rations of horses to Freedmen when these people are in Hospital in the same manner as is done by the Army Regulations for sick soldiers in Hospitals you will hereafter draw only such parts of the rations as are actually required for the support themselves and authorized attendants and in this manner establish a "Hospital Fund" which is expended in the purchase of such articles which are needed by the sick and which are not issued by the Subsistence or Medical Departments.

The accompanying circular from the Commissary General of Subsistence is furnished for your guidance and information.

Very Respectfully

Your Obedt. Servt.

Circular

Office Commissary Genl. Subsistence
Washington Wash. D. C.

Hospital Fund Now Created

The sick and mending will receive in this manner, only such parts thereof as are required for the support of themselves and authorized attendants. The difference between the number of rations due a Hospital, at each price of the a complete ration of the station and the value of the stock issued, it being the same price and of the same price, available a credit with the Subsistence Department of the Hospital, the "Hospital Fund".

W. H. H.

The Commissary who issues to a Hospital is authorized to purchase for it on the requisition of the Medical Officer in charge, and in the amount not exceeding the Hospital credit at the time, a certain 1st class, solid or fuel to be used in the diet of the sick, and not furnished by the Subsistence Department or Medical Department.

Articles to be used in either the preparation or serving of the food are to be purchased by the Commissary and not furnished by the Quartermaster Department or Medical Department.

Gas, Oil, and other means of illumination to be used instead of candles, which are part of the ration. The Hospital Fund being thus a means of expediting the suffering sick with wants and necessities needed in their health and more comfortable condition, and otherwise to be obtained, its management should be held as a sacred trust and its expenditure controlled strictly to the purpose which this fund is intended to accomplish. Medical and Hospital supplies and

Quarters, medical supplies, and all objects of the expenditure from the appropriations of the different Departments of the military service, are not proper charges against the Hospital credit.

Its Expenditures.

The articles purchased by the Commissary for the sick in Hospital are paid for out of the Subsistence funds in his hands for public disbursement, on a voucher certified to by the Medical Officers in charge; and the balance is diminished in consequence of the amount of the purchases made. An expenditure of money by the Commissary for the subsistence or maintenance of sick in Hospital is accounted for in the manner prescribed for other disbursements of the Subsistence Department. At large Depots or Camp Hospitals, this fund may be partly expended for the benefit of the sick at regimental Posts or in detachments, on requisitions approved by the Medical Director or senior Surgeon of the district.

How Ascertained

A Statement of the Hospital Fund is made out at the end of each calendar month, and appears as a part of the Commissary's Abstract of Issues to Hospital for the month. On this account the balance of credit (if any) to Hospital, at the end of the preceding month, and the number of rations due in the month, at cost price; also the stores which have been issued by the Commissary to the Hospital and articles purchased by him for the sick, during the period, with the cost of each article, are ascertained. The difference between these two amounts credits and debits - leaves an ascertained balance of credit (if the Hospital Fund for the month has not been entirely used up), applicable to authorized expenditures for the subsistence or con-

tinuance of the sick in Hospital during the following month. This Statement may be prepared in the same manner, at any day should there be occasion for ascertaining the exact state of the credit of a Hospital at any particular date. An Abstract of Issues to Hospital and a Statement of the Hospital Fund should be made out monthly for each separate Hospital.

Colt W Hornum
Chief Medical Officer
B of R. F. and W. Land.
Washington D.C.

I have the honor to acknowledge the receipt of your communication of the 26th inst and in reply beg to say that it is my opinion that some arrangement should be made for Freedmen who are sick with their Masters while engaged under Contract, that Employers should be compelled to pay so much per day when they send their Servants to the Freedom Hospital for treatment. There are at present a large number of Freedmen in Cities without any visible means of support applying daily for Medical Attendance and while no effort has been made by the City Authorities for providing for the sick, it is also my opinion that Common Humanity requires the continuance of Freedom Hospital

I have the honor to remain
Very Respectfully Yours &c
